

WINE LIST

We are Strong Supporters of "Nudity in Wine"

Naked wine paired with naked food.

With almost 200 allowed additives that are legally permitted in wine, we choose to feature wines that complement our food: wines with the least possible use of chemicals, additives and overly technological procedures.

Enjoy with confidence!

We pay attention to every single detail when it comes to our wines, from the accuracy of the information provided to you in this book, all the way to how we store and serve it to you. We are extremely passionate about every bottle listed and want you to be too!

Dom Pérignon Champagne 2012	500

ORANGE WINES

Orange wines are just white grapes kept at length on the skins until the juice obtains a tannic character. Aging and fermentation are often done in open air, so the wine partially oxidizes giving it that distinctive orange color. Some growers go further and ferment (age) their wine in clay amphorae buried in the ground. Others use open-top barrels. All are pursuing a highly natural, anti-technological yummy wine that we can get passionate about!

Fongoli, "Biancofongoli" IGT Umbria Bianco 2021	49
